Lab 3: Tests Output (Part 4)

Manan Parikh (mananrajeshb@umass.edu), Noah Walls (nwalls@umass.edu)

When running the FullApplicationTest

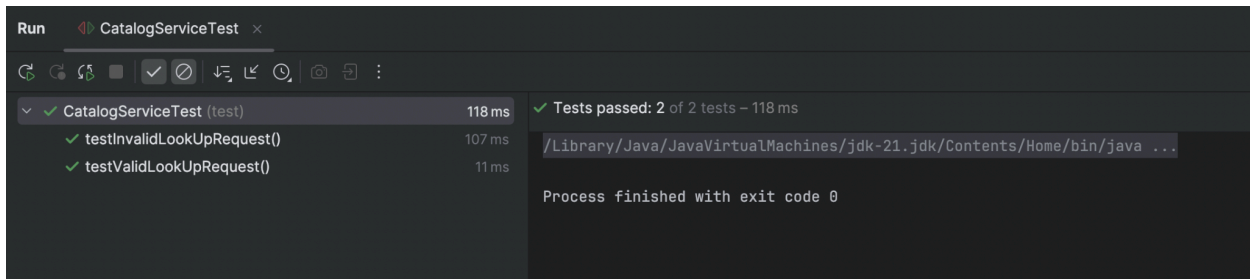

The screenshot shows the IntelliJ Run window for the `FullApplicationTest` class. The test suite consists of 9 tests, all of which passed. The total execution time is 1 second and 15 milliseconds. The tests and their durations are listed in the table below:

Test Name	Duration
<code>testValidOrderSellRequest()</code>	358 ms
<code>testInvalidLookUpRequest()</code>	44 ms
<code>testValidOrderBuyRequest()</code>	148 ms
<code>testInvalidationRequest()</code>	4 ms
<code>testValidLookUpRequest()</code>	11 ms
<code>testInvalidOrderRequest()</code>	52 ms
<code>testMultipleLookUpRequests()</code>	322 ms
<code>testInvalidationRequestWithInsufficientParameters()</code>	6 ms
<code>testValidTransactionLookUpRequest()</code>	70 ms

The output pane on the right shows the command used to run the tests: `/Library/Java/JavaVirtualMachines/jdk-21.jdk/Contents/Home/bin/java ...` and confirms that the process finished with exit code 0.

When running the CatalogServiceTest

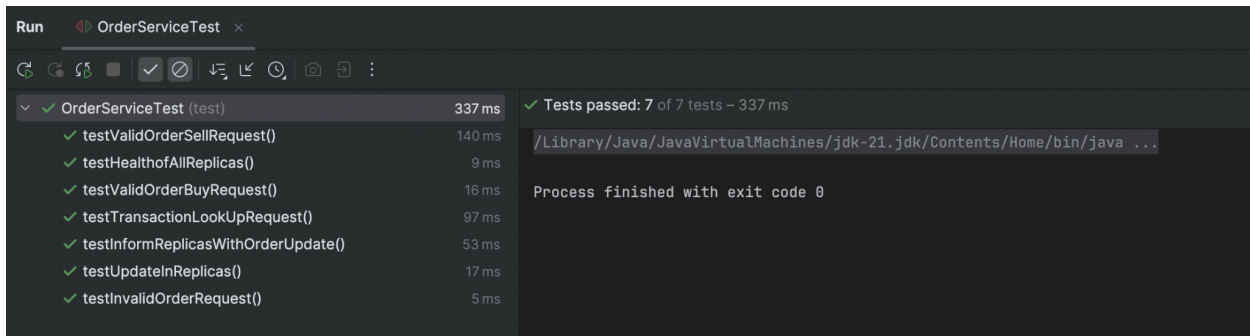

The screenshot shows the IntelliJ Run window for the `CatalogServiceTest` class. The test suite consists of 2 tests, both of which passed. The total execution time is 118 milliseconds. The tests and their durations are listed in the table below:

Test Name	Duration
<code>testInvalidLookUpRequest()</code>	107 ms
<code>testValidLookUpRequest()</code>	11 ms

The output pane on the right shows the command used to run the tests: `/Library/Java/JavaVirtualMachines/jdk-21.jdk/Contents/Home/bin/java ...` and confirms that the process finished with exit code 0.

When running the OrderServiceTest

The screenshot shows the IntelliJ Run window for the `OrderServiceTest` class. The test suite consists of 7 tests, all of which passed. The total execution time is 337 milliseconds. The tests and their durations are listed in the table below:

Test Name	Duration
<code>testValidOrderSellRequest()</code>	140 ms
<code>testHealthofAllReplicas()</code>	9 ms
<code>testValidOrderBuyRequest()</code>	16 ms
<code>testTransactionLookUpRequest()</code>	97 ms
<code>testInformReplicasWithOrderUpdate()</code>	53 ms
<code>testUpdateInReplicas()</code>	17 ms
<code>testInvalidOrderRequest()</code>	5 ms

The output pane on the right shows the command used to run the tests: `/Library/Java/JavaVirtualMachines/jdk-21.jdk/Contents/Home/bin/java ...` and confirms that the process finished with exit code 0.
